PUBLIC BUILDINGS

IMPORTANT FACTS ABOUT DOVE-KOTE

Only one coat needed.
Dries to touch in one hour.
Can be applied directly over fresh plaster or wall board in new work.

One gallon, when mixed with water, will yield 1-2/3 gallons of paint. One gallon will cover 750 to 1000 sq. feet.

Dove-Kote is a washable wall paint — Flat finish.

DOVE-KOTE COVERS IN ONE COAT

It may be applied with 7 or 8 inch calcimine brush or with one of the new casein brushes shown in this catalogue.

SERVICE to the Decorator for 47 Years.

Over the course of years we have held steadfast to the policy of supplying quality products to the trade. Products that we knew would help you to do the kind of a job that would hold your old and make new customers. We in turn have earned your confidence and good will.

Dependable service—James Davis service—has made it possible for you to make good on your own promises to your customers. **Your order is shipped the same day it is received.** We carry large stocks at all times to make this promise a reality. Each year we receive thousands of testimonial letters congratulating us on our efficiency in speeding the delivery of your orders to you.

Our prices are the lowest at which quality materials can be offered to the trade. We are going to do everything within our power to hold prices down so that you will be protected. This has required the carrying of even larger stocks than usual. We feel however that you, who have been our customers over the years, would expect us to do this.

We will not compromise on our standards of quality. We know that our materials will give satisfaction. That is why we guarantee our products with absolute confidence. If, for any reason, anything purchased from us, does not meet with your complete approval, it may be returned and the full value refunded.

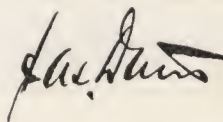

Special decorating problems arise from time to time. If you will give us your problem, we will be happy to help you. Many times each year we have been able to save our customers much time and expense. Be sure to take advantage of this service. Your questions will be answered at once.

If you have unusual contracts on which you are bidding, we can co-operate with you. We want to make it possible for you to compete on any job on which you are figuring.

Keep this catalogue. Refer to it often. It contains everything that is used by the painter and paperhanger in producing first-class work.

Whenever you send in a wallpaper order, check over your shop supplies and your needed brushes, tools or paint can be shipped with the wallpaper.

Faithfully yours,

A handwritten signature in dark ink, appearing to read "J. Davis", written in a cursive style.

President.

To satisfy your most particular customers, use

James Davis Wallpapers

James Davis WASHABLE and Unfading Wall Papers are something different from the regular line of Wall Paper. It is not just Wall Paper, but a representation of the finest and best in the art of Interior Decoration.

Every outstanding decorative idea of America and Europe is represented in this wonderful selection. Every design and coloring is distinctly unique and artistic, and the whole collection meets every possible requirement for the decoration of the American home.

What makes James Davis Wallpapers still more popular is that our prices are no higher and, in most cases, considerably lower than what is asked for ordinary Wallpaper.

The two protective features—washability and fastness of color—invite the use of James Davis Wall Papers in every room of the house, for any soil can be easily removed with sponge and water and our Wall Papers will retain for many years the lustre and beauty of the most delicate colors. To satisfy the most exacting customer,

to make and to hold new customers, to add to your profit and prestige, James Davis Wallpapers will play an important part.

The great success enjoyed by over fifteen thousand of our customers in the sale of James Davis Wallpapers is an additional assurance that you also will greatly succeed in the sale of our goods.

The 1941 Sample Books of James Davis Wallpapers are yours for the asking, and will be sent to you free of all charges upon your application. An immediate request will insure you a complete set of Sample Books of the wonderful James Davis Wallpapers.

JAMES DAVIS DELUXE WALLPAPERS

To service our trade who wish to show special collections of the more exclusive and better styled wall papers, we have two beautiful books that are available—

The Maroon Portfolio "G" — Current for 1940-1941

The Black Portfolio "H" — Current for 1941-1942

These special sample books contain over three hundred of the finest wallpaper designs. Included among the collection are fine Colonial designs that will be of special interest to the builders of new homes. Architects and Interior Decorators will find unusual ideas that will assist them in creating stylized interiors.

In all, you have access to seven Sample Books of James Davis Wallpapers, the largest collection of fine Wallpapers obtainable, and which will give you opportunity to fully satisfy the most discriminating customers.

We do not regularly distribute the portfolios of our DeLuxe Wallpapers, but offer these Portfolios to our customers as a loan for fourteen days, to enable them to satisfy their particular customers, after which time the DeLuxe Portfolios are to be returned to us at our expense. When a customer has constant need for our DeLuxe Portfolios, we make arrangements for their retention by such customer.

Whenever you have call for the highest grade Wallpapers, please write for our DeLuxe Portfolios.

SATIN FINISH WALL PAINT

WHITE ONLY

\$1.95

**Per Gal.
NET**

We recommend Satin Finish as being one of our finest materials. It is heavy-bodied and has exceptional hiding power. It is an ideal material where one-coat work is desired. Dries with much more of a sheen than Decorators Flat. Covers 500 square feet per gallon one coat and works with ease under the brush. An all-around high grade material to keep in the shop. You make your own tints with James Davis oil colors.

5 gal. cans, per gallon...net **\$1.90**

1 gal. cans, per gallon...net **\$1.95**

JAY DEE PRIMER SEALER

\$2.00

**Per Gal.
NET**

This material is indispensable as a reliable first-coater. Jay Dee Sealer is a heavy pigmented oil primer and size which when applied over new plaster, wood, or composition boards positively stops the suction so that finishing coats will dry out with a uniform finish. Being pigmented it acts as a first coater.

Difficulties in painting over fresh plaster or patched wall are overcome by using this material.

It is made in white only but may be tinted with James Davis oil colors. It spreads at the rate of 800 square feet per gallon, one coat.

It resists to remarkable degree the destructive action of dampness, lime and alkaline salts. Prepares a perfect bond for future top coats.

In 5 gal. cans, per gallon...net **\$1.95**

Judge us by our performance

Champion Flat Paint

\$1.50
Per Gal.
NET

A heavy bodied medium priced flat paint of fine quality. Made expressly for the decorator who wants to mix his own colors. Covers exceptionally well and dries free from laps and brushmarks to a perfectly dead flat finish. Many of our customers re-order as much as 100 gallons at a time which can mean only one thing—Satisfaction. Furnished in white only.

5 gal. kits.....Per Gal. \$1.45 Net
1 gal. cans.....Per Gal. 1.50 Net

Jay Dee Flat Stipple

This is a heavy-bodied oil paint. It is "short" enough to produce a sharp pronounced stipple. It sets slow enough so that the painter can spread a large wall space before going back to stipple.

It dries hard overnight and will do one-coat work. Works easy under the brush.

White only.

5 gallon cans, per gal.....\$1.90 Net
1 gallon cans, per gal..... 1.95 Net

Master Painter's Gloss Stipple

An exceptionally heavy bodied pure white paint of unusual covering capacity. Its consistency is just right for stippling as it comes from the can. It will produce a fine pin point stipple. When placed on the wall it will not flow, but will hold where applied, ready for the stipple brush. It dries with a semi-gloss finish.

\$2.15
NET
Per Gal.

5 gal. kits, per gal.....\$2.10 net
1 gal. cans, per gal..... 2.15 net

Jay Dee Eggshell Stipple Paint

This paint is formulated along the lines of the flat and gloss type but dries with an eggshell finish to meet the taste of those who prefer this type of finish. It has the same advantage of "slow-set" to permit spreading of considerable wall space before coming back with the stipple brush.

Dries hard overnight. Works easy under the spreading brush.

White only.

5 gallon cans, per gal.....\$1.90 Net
1 gallon cans, per gal..... 1.95 Net

Jay Dee Semi-Paste Paint

\$2.15
NET
Per Gal.

This universal paint, suitable for all kinds of interior work, is easily and quickly thinned to brushing consistency with Linseed Oil and Turpentine.

One gallon of Jay-Dee Paste Paint makes half again as much when reduced.

The covering power is all and more than you would expect to find even in a much higher priced paint.

On new work one coat applied over Jay-Dee Sealer produces a first-class job. It works freely under the brush without any tendency to drag or pull and dries nicely over night with a uniform full oil gloss.

On old work, one coat produces a finished job especially if tinted to the approximate color of the existing finish.

IT'S A PURE PAINT

Quality tested white lead and zinc pigments are finely ground in the best grade linseed oil that money can buy. When properly applied, it will not chalk, peel, or crack. It will cover better and outwear any other mixed paint on the market.

It contains no adulterants of any kind.

It is heavy in body, works freely, covers perfectly and will prove more economical and durable than white lead and oil mixed by hand.

It dries perfectly hard with a gloss, but possesses the elasticity needed for weathering.

BLIND AND TRIM GREEN

Liquid Lead and Zinc

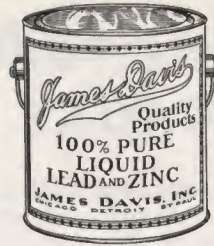

Certain jobs require the use of a government formula exterior paint. James Davis Liquid Lead and Zinc answers these specifications. It contains exactly 66% strictly pure white lead and 33% strictly pure zinc oxide. The liquid is pure raw linseed oil tested to our rigid specifications with just the right amount of drier and turpentine.

This paint takes the guess work out of your paint mixing problem and gives you the assurance of a pure paint of uniformity and utmost covering power. It works easily under the brush.

Substitutes controlled grinding for guess work on lead and oil jobs.

Comes in white only.

Cement Coating

The Ideal Paint for Brick

Is the most scientific and practical preparation manufactured for the treatment and decoration of concrete, cement, stucco or plaster surfaces, both interior and exterior. When properly applied, it dries quickly and in time becomes hard, forming a part of the surface. The coating thus formed is impervious to all disintegrating influences and proof against the alkali action of cement which destroys ordinary paints.

PROGRESS MIXED PAINT

This paint is composed of select materials of which pure white lead, zinc oxide and pure linseed oil form the largest percentage. It has excellent hiding power and durability. Dries well with a good oil gloss and covers 300 square feet per gallon, two coats. Considering the price at which it is sold it represents an exceptional value.

By actual test this paint has been found to possess greater wearing properties than many so-called first quality paints.

Made in 24 popular colors as well as black, outside white and inside gloss white. Color card supplied on request.

GLAZING AND BLENDING LIQUID

This liquid is the most highly perfected of any blending liquid on the market. Will not sag or run and its slow setting qualities enable the decorator to obtain absolute even effects over large surfaces.

With this material, Tiffany blends and sponge stipples of unusual beauty may be easily produced.

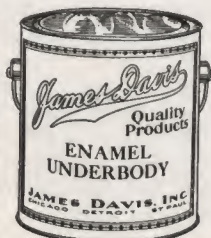

Glazing of rough plaster finishes leaves clean highlights. Dries to a dull, uniform finish that will withstand washing.

Enamel Underbody

A flat paint expressly made as an undercoating for enamels. Covers better than lead paint and levels like enamel without brush marks, which is a decided advantage, as it saves time in sanding. It dries hard enough over night so that enamel can be applied without danger of absorption. Beyond a doubt in a class by itself as a foundation for enamels.

In white only.

Bronzite Green

Send for Color Card)

BRONZITE is different from other greens—it holds its color. Many greens fade quickly.

BRONZITE has a mineral base which adheres to and combines with the surface. With this mineral base we use a pure green pigment of the highest quality, and both mineral and pigment the ground to the very finest degree in pure linseed oil.

Besides holding its color, BRONZITE spreads better, covers a larger surface and, gallon for gallon, is more economical. BRONZITE'S superior covering properties are so marked that they can easily be proven by use.

Wonder Paste

THE SPECIAL PAINT AND VARNISH REMOVER

This unusual material does a "miracle" job on exterior work. You will save money by using Wonder Paste instead of the blow torch.

On interior work, Wonder Paste cuts so thoroughly that no sanding or adding or additional finishing is necessary.

It leaves the surface in perfect condition for revarnishing or repainting.

On exterior work, Wonder Paste can be applied on a windy day, when a torch cannot be used.

It will remove any number of coats of paint or varnish more thoroughly and quicker. Order a case and see for yourself.

New Challenge Trimmer

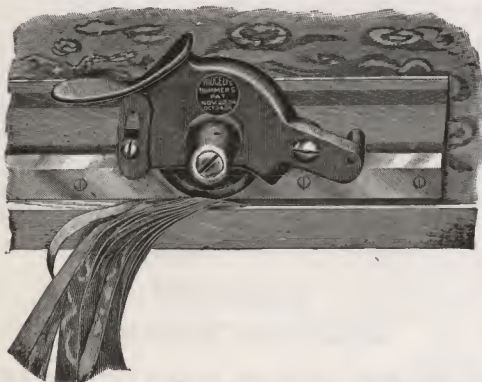

At last we are able to offer our customers from coast to coast a light weight mechanically perfect trimmer. Its smoothness of operation is almost unbelievable, but the minute you lay your hands on it you will realize that it is a precision instrument. Never again, if you obtain one, will you experience a wobbly looseness or a jerky tightness when cutting, for, this Trimmer has perfect alignment in the blade.

When used with the new screwless straight edge it is practically foolproof. Its construction is simple, yet efficient. It is made from best quality aluminum, highly nickeled.

The Challenge, we believe is an excellent investment for every mechanic.

Trimmer only.....\$3.25

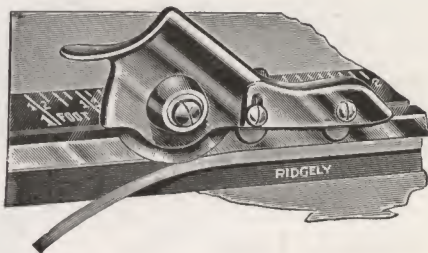

Ridgely's Model D Trimmer

This trimmer which for many years has been considered as standard by leading mechanics, is made entirely of steel and measures 5 inches long. It can be used only in conjunction with a No. 4 or No. 10 straight edge, because it is constructed with a steel clip guide which runs on the brass track of the straight edge with the trimming wheel closely hugging same, thereby insuring a perfectly true cut, which is very important when doing butt work.

Trimmer only.....Net \$3.00

The Master Trimmer

The new Ridgely Master Trimmer is an outstanding achievement as you will notice the minute you slide it down a straight edge. It travels on a bronze bearing. The cutter turns on a patented bearing axle and zips its way through the paper true and easy. It travels the brass without the usual side sway or wobble. It is equipped with the latest blade bearing assembly which insures long life and freedom from trouble.

The Ridgely Folding Paste Table

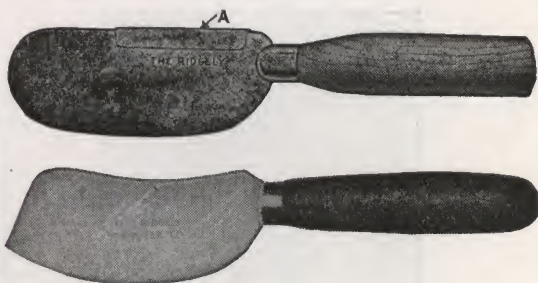

No. 314. This folding paste table is unusually solid, because the legs which are placed at a slight angle to the top to prevent table from creeping, are reinforced in every direction by steel braces as shown in illustration. There is a convenient place for surplus paper between the diagonal braces and the legs. When folded there is plenty of space inside for straight edge and other tools. The top is made from selected kiln dried lumber free from knots and measures 22 in. in width.

RIDGELITE SEAM ROLLERS

Do Not Flash or Polish the Seam

All seam rollers in this column are made from a patented composition which is hard as stone, tough as leather, and smooth as glass. The axle to which the handle is fastened, is moulded right into the roller, thereby preventing it from running out of true, which is characteristic of wood and celluloid rollers. The corrugated surface of roller overcomes flashing or polishing of seam.

Turner Blotorches

The Turner No. 30A is a newly engineered high-quality low-priced blotorch. The heavy improved burner develops an extremely hot blue flame and will give service indefinitely without clogging. Orifice enlargement is prevented by the taper design needle valve with set-back shoulder seat and the valve wheel is made of cool composition material having a deeply corrugated non-slip grip. The safety-type pump is sturdy and efficient and is designed for convenient oiling and servicing; and the highly polished seamless brass tank is well set off by a smart red handle. Gasoline Fuel.

Ridgely Adjustable Folding Scaffolds

From a standpoint of efficiency and safety nothing can compare with this folding scaffold.

It is made of best grade Norway pine. The construction is rugged, but not so cumbersome so as to make it difficult to transport from one job to another. It is easily adjusted to any height between 6½ ft. and 10¼ ft. The nose is 26 inches long. This is the platform support, and holds you 42 inches from the wall at full height.

The stairway and other ungettable places are easily reached with these.

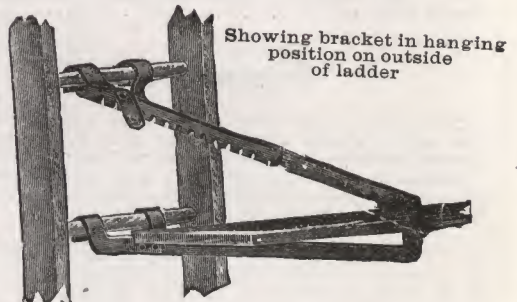

This cut shows one scaffold set up, and nose leaning toward you.

This cut shows how the steel braces look when attached to the scaffold when it is extended to its extreme length.

RIDGELY HOISTER

ONE OF THE GREAT ADVANCEMENTS IN AMERICAN METHODS

The Ridgely Hoister is a small, powerful hoisting machine for painters, shipyards, building cleaners and bridge builders. It is built for a lifetime of carefree service, made to resist rust, to add safety and convenience, and in the long run, economy to all who work from stages. Hoisters come with steel cable from 50 to 200 feet.

With this machine you wind your way quickly and safely to the level desired, knowing that it is locked against unwinding. In coming down you raise locking levers and turn handles backward, then brake goes into automatic action. When leaving

the work at night, remove handles and machine is locked.

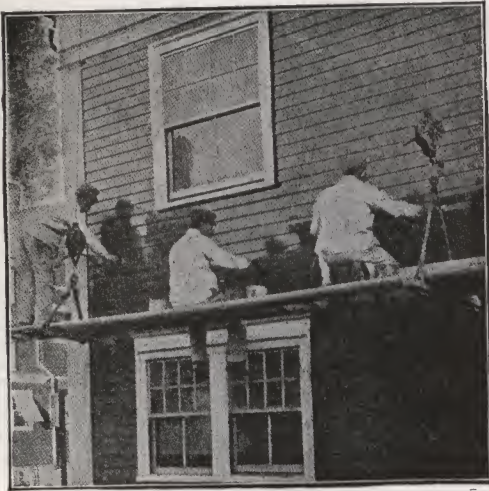

THE CABLE

Each hoister contains a coil of one-quarter inch steel cable of requisite length, which has been tested and is guaranteed to sustain a ton, dead weight. The cable is treated to prevent rusting.

THE BRAKE FOR COMING DOWN

A metal brake-band encircling the brake-drum is in direct relation with the hook hanger, so that as the load is applied to the hook a braking force is proportionately applied to the brake-drum, and through it to the shaft. The operator's arms are freed from the dead load, as the load itself automatically operates the brake. The stage cannot descend except as the handles are turned backward by the operator.

The No. 383 Hoister weighs complete with 50 ft. of cable, 30 pounds. It measures over all from hook to hook, 24 inches. The body of the machine is 9 inches in diameter and 5 inches between the side-plates.

Wall Paper Sample Book Case

Large size, 20 inches wide, 20 inches high, 7 1/2 inches broad

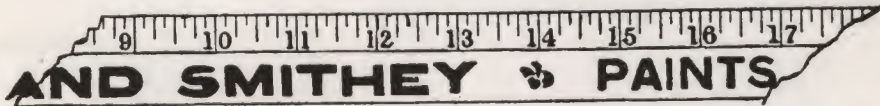

Price \$2.00 Net

THIS sample case is especially made to hold a complete set of our Wall Paper Sample Books, which are considerably larger than the usual set, and besides protecting the Sample Books, it makes a much better impression upon your customers when you bring the Sample Books to them in a nice appearing case like this.

This case is made of wood and covered with a substantial material (used for automobile tops), nickel fittings and nickel caps at all corners, very light in weight and very strong.

We have these Sample Cases made up in large quantities at a cost considerably higher than the price we ask, because we want our customers to protect their Sample Books, as there is more chance to sell the goods when the Sample Books look nice and clean.

YARDSTICKS

We have placed an order for a large quantity of first quality Basswood yardsticks, which will enable us to supply our dealers with yardsticks at a less price than they can secure them from any other source.

These yardsticks are of select quality, made of best Northern Basswood, and will be furnished in natural wood, scale printed in black, your advertising in red on one side of stick, and our advertising, with scale, on other side. This makes a most attractive yardstick.

Give us good, plain copy. Do not over-crowd for good display. Confine your copy to from 50 to 65 letters for best results.

We quote you:

James Davis Brushes are honest Brushes

Quality Brushes for the Master Painter

We stand back of our brushes, and guarantee satisfaction, by stamping our name on the handle of each brush. You, the Master Painter, may select your brush from our catalog with the confidence that only brushes that match up to the James Davis standard of quality are listed here.

In these days of price fluctuations, we appreciate more than ever the necessity of maintaining standards.

We know that the Master Painter always remembers the brushes that give good service.

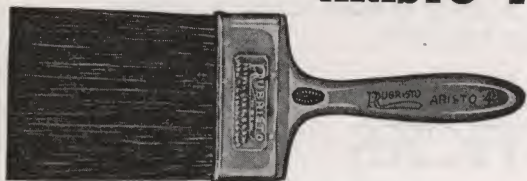

CRACK-A-JACK WALL

This brush will fill the bill for those who want a heavy duty brush with extremely long stock and plenty of it. It is impossible to secure longer China bristles than those contained in this brush and equally impossible to crowd more bristles into the ferrule. Even if you should be willing to pay twice the price we ask, you could not obtain a finer brush. Finished with nickeled ferrule and lacquered beavertail handle.

		Crack-a-Jack Prices

Chicago Stippler

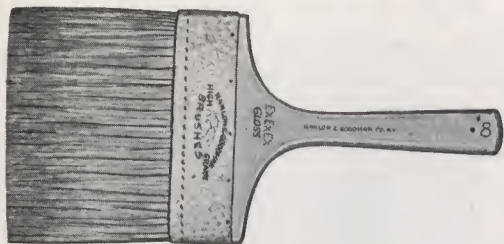

This tool represents a new idea in Stippler construction. The bristles which are of the pure variety are set at an angle on a comparatively narrow block so that they extend beyond same. This enables the decorator to do just as uniform stippling in corners and against ceiling as on an open surface, without the usual danger of touching the finished work with fingers or edge of block. Try one on your next job, and if you do not think it is the dandiest tool you could carry in your grip send it back and we will cheerfully refund your money.

12 inch long	Net per doz. \$81.50	Net each \$7.50
10 inch long	Net per doz. 67.50	Net each 6.25

Metal Back Wall Stippler

This is an entirely new type of construction in stippling brushes, although the shape is the same as the Chicago. It is stocked with the strongest black bristle. The aluminum back prevents warping or splitting. Bristles are vulcanized in rubber. Perfect satisfaction guaranteed.

Size of Block	Net Per Dozen	Net Each
12" long 2¾x12	\$86.00	\$8.00

XXX White Kalsomine

This brush has real beauty and believe us, it is not "Skin Deep." Heavy stocked with only pure white Russian bristles of the very finest quality. Finished with heavy galvanized ferrule and natural whitewood handle. Limited stock.

Width	Length Hair	Net Each
8 inch	5½ inch	\$21.00

Superfine Kalsomine

This is a brush you will be proud to own. Made of all Russian bristle, known for their springy and flexible nature, as well as softness and fullness of the flag, which enables them to hold more material and do finer work. It is white outside with gray center, finished with galvanized iron band and white natural hardwood handle.

Width	Length Hair	Net Per Doz.	Net Each
7 inch	5½ inch	\$155.00	\$15.50
8 inch	5½ inch	195.00	17.00

Rubristo Kalsomine

Intended for the mechanic who wants the very best quality, but who prefers slightly shorter stock than in the "Superfine." Otherwise identical to same both as to quality and construction.

We aim to carry everything used by the Painter and Decorator

TAKE CARE OF YOUR BRUSHES

A good paint and varnish job requires a good brush, which should always be kept clean and in perfect condition.

Good tools are always most economical in the long run, and James Davis brushes, if properly taken care of, will last a long time.

We must always remember that good brushes not only perform good painting work, but also save considerable time in the performance of any painting job, thereby greatly reducing labor costs.

There are a few simple instructions which should always be followed to keep your brushes in first-class condition.

Paint brushes should be wiped on an old board until no more will come out of the brush. Then thoroughly wash the brush in kerosene or benzine. Wipe the brush dry and beat it across the edge of a board so that the board strikes the bristle just below the ferrule. Repeat this operation three or four times until brush is clean. Then wrap carefully in paper and set flat on the shelf.

Calsomine brushes should be washed with water only. They should not be stored in a dry place, because the wood will shrink and all the bristles will come out. After calsomine brushes have been stored away, they should always be soaked in water before being used again to swell up the wood and hold the bristles.

Stipple brushes should be washed in the same way as paint brushes. It is advisable at times to wash out the stipple brush during the day to prevent skins forming on the end of the bristles and marring the work or breaking the bristles.

PRESERV-A BRUSH WRAPPER

This metal wrapper really preserves a brush by keeping the bristles in shape at all times. Practical painters have found this metal wrapper excellent for keeping a brush in the material overnight, and yet protecting the "flag ends" and preserving the bristle shape.

WALLPAPER AND WALLPAPER HANGING

By Charles L. Young

Mr. Young has endeavored to make his new book a real handbook of information for those engaged in any branch of the Wallpaper business. He lays great stress on the practical processes of the trade, such as estimating, tools and equipment, materials, the preparation of walls, and the hanging of different kinds of wall coverings on different kind of walls to meet different conditions. The history of Wallpaper, how Wallpaper is made, color harmony in the use of wall coverings, the use of paneling, ways to promote and develop business, the principles of salesmanship, training workers, and many other subjects are all very intelligently and clearly treated. Fully illustrated.

Practical Estimating for Painters and Decorators

By W. P. Crannel, B.S.,

Instructor Washburne Apprentice School, Chicago

Large 12mo. 160 Pages. Fully Illustrated. Cloth.

Price \$2.00

This is a complete textbook covering all the processes and elements of an estimate for painting and decorating. Part I comprises about fifty lessons in arithmetical processes that pertain to areas needed by an estimator in determining the costs of material, labor, overhead and profit which enter into his calculations.

Part II comprises 17 chapters on complete jobs of estimating. All details are carefully set forth and the text is fully illustrated with line drawing and halftones.

15,000 satisfied customers are the mainstay of this house

NEW WINDOW SHADES ARE NEEDED TO MAKE A COMPLETE DECORATING JOB

Imagine how shabby or dirty window shades will look among fresh clean surroundings of paint and wall paper. Why not provide the shades that would complete the job? Their need is so glaring that they can be readily sold. We have them in all the new and attractive fabrics—plain, striped, figured—just the right shade for any requirement.

Shade sales are easily made and handled. We furnish sample-and-color books. You measure as instructed, we make them to fit and furnish complete. You hang them and collect your profit!

Clinton Machine Made Oil Opaque

Low in price but of good quality. The colors are ground in oil and are of smooth and uniform finish. Will render a long period of satisfactory service.

Style A

Scallops made in the following patterns

Style No. 5

Style B

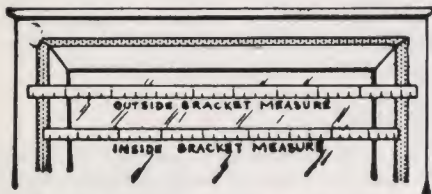

The following table shows price of 2" Bullion Fringe put on Eagle Plain Opaque, Duplex, Luxor, Luxor Duplex, and Viking Corded Hollands. For sizes between those given take the next width price.

Width of Shades in inches.....	Up to 42"	54"	90"
Rayon Fringe, Scalloped, per shade.....	\$0.52	\$0.68	\$1.10
Rayon Fringe, Straight, per shade.....	.36	.44	.84

To this price add cost of plain shade as shown in tables.

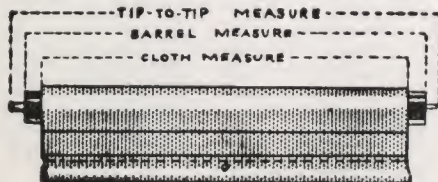

Standard tassels to match can be supplied in place of the ring pull at an additional charge of 12c per shade.

How to Measure for Shades

When either of above measures are given, all necessary allowance for width is made to insure proper operation of roller.

Shades should be ordered at least six inches longer than height of window.

When shades are to be hung on the face of the casing or window frame, take measurements between the points where the brackets are to be set, and specify **Outside Bracket Measure**.

When shades are to be hung on the inside of casing or on stops, measure exact distance between points where brackets will be placed and specify **Inside Bracket Measure**.

For replacing worn out shades, it may prove easier to measure the old ones rather than to re-measure at the windows. In that case adopt one of the three measurements shown in the diagram and specify which one was used, mention also whether shades will be hung between opening or on face of casing.

Write for Special Quotations on Quantity Orders. Sample Books of Shade Cloth on Request.

There is no exaggeration in the description of our goods

FAB-RIK-O-NA

DISTINCTIVE CLOTH WALL COVERINGS

Book of samples and useful information about this beautiful line of decorators wall hangings will be mailed free upon request to those interested. 30, 33 34 and 36 inch goods come in 50 yard rolls. Wider goods run about 30 yards to the roll.

Square dealings—The cornerstone of this house

Newspaper Advertising Cuts

Newspaper advertising is of great help in building and developing any business; especially is this true of our business, for if every home that needs decorating were decorated and if every house that needs painting were painted, there would not be enough mechanics to do the work. The proper thing to do in developing this business is to bring to the attention of the home owner what comfort and pleasure a properly decorated home will bring him, and, how much the life and the value of his house is increased by proper painting.

We shall be glad to furnish you with either of the two cuts illustrated below, free of charge upon your request.

WALLPAPER BRINGS *Charm* TO YOUR HOME

We feature the famous
JAMES DAVIS
WASHABLE and UNFADING
WALLPAPERS

Cut No. 5
Double Column Newspaper
Cut Size $4\frac{1}{2} \times 6\frac{1}{2}$ inch.

WALLPAPER BRINGS *Charm* TO YOUR HOME

We feature the famous
JAMES DAVIS
WASHABLE and UNFADING
WALLPAPERS

Cut No. 6
Single Column Newspaper
Cut Size $2\frac{1}{4} \times 5$ inch.

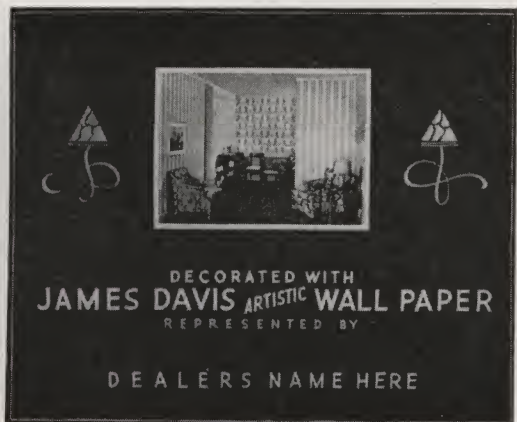

The space mortised in the center of the cuts is for insertion of your own printing matter

James Davis Varnishes flow smoothly and wear long

MOVING PICTURE SLIDES

Moving Picture Slide No. 1

Moving Picture Slide No. 2

ORDER BY NUMBER AND SPECIFY EXACT WORDING TO APPEAR ON SLIDE
THREE LINES CAN BE USED FOR THIS PURPOSE

These Slides will be furnished to you with your Name and Business prominently inserted.

THE popularity of Moving Picture Houses is constantly increasing, and there is hardly anyone now who does not indulge in this wholesome form of amusement and instruction. The great number of people frequenting the Moving Picture Theatres make these Theatres an excellent medium for advertising. Your advertising thrown on the screen cannot fail to attract the attention of everybody present to your business.

Many Moving Picture Theatres display these Advertising Slides without charge, in an effort to help local business, other Theatres display these Slides for a nominal charge. After you have made arrangement with your Theatre for the showing of your Advertising Slides, write to us and we shall be glad to furnish the Slides as illustrated above, free of charge.
